Profile

Strategic Communications Specialist and Investigative Reporter with over 20 years of experience in high-pressure, international environments. Expert in multi-platform storytelling, crisis management, and stakeholder engagement. Proven track record of navigating complex global narratives—from deep-sea expeditions to the first manned moon landing—to deliver impactful messaging that drives awareness and organizational integrity.

Experience

Lead Investigative Correspondent | Le Petit Vingtième

1929 – Present

- **Strategic Content Creation:** Drafted hundreds of high-impact reports, web-equivalent stories, and radio briefings on international crime rings, including narcotics trafficking and espionage.
- **Digital Investigation:** Conducts advanced darkweb reconnaissance using TOR and Robin, ensuring operational security through persistent VPN usage.
- **Stakeholder Relations:** Established and maintained a vast network of contacts across 196 countries, including government officials, law enforcement agencies, and NGOs.
- **Crisis Communications:** Acted as a primary spokesperson and narrative lead during high-risk field missions, ensuring consistent messaging even in volatile zones (e.g., *Tintin in Tibet* / *Tintin i Tibet*).
- **Advocacy & Campaigns:** Developed narratives that raised awareness for international justice, contributing to the dismantling of several global criminal syndicates.

Strategic Communications Consultant | Syldavian Space Program

Special Assignment

- **Mission Advocacy:** Managed the public narrative for the first lunar mission, ensuring transparency and building global engagement for a multi-national scientific priority.
- **Crisis Management:** Identified and mitigated communication risks related to internal sabotage and technical failures during the critical phases of *Explorers on the Moon* (Månen tur-retur II).
- **Visual Storytelling:** Commissioned and curated visual documentation of the mission to demonstrate relevance and impact to international donors and stakeholders.

Key Competencies

- **Digital Intelligence & AI:** Expertise in darkweb investigation (TOR, Robin) and secure VPN protocols. Proficient in leveraging AI for pattern recognition and investigative research through multiple private AI projects.
- **Strategic Advisory:** Expert at shaping targeted messaging for senior leadership and operational staff in multicultural environments.
- **Multi-Platform Content:** Proficient in drafting press releases, talking points, social media scripts, and long-form human interest stories.
- **International Relations:** Deep understanding of cross-border cooperation and the mission of INTERPOL; fluent in English, French, and Syldavian.
- **Field Resilience:** Documented ability to conduct missions and produce content under extreme conditions, from the Sahara to the Himalayas.

Education

- **Master-Level Equivalent (Field Experience):** Over 20 years of professional practice in journalism, international investigation, and strategic communications (meeting the 10-year requirement for senior secondment).
- **Advanced Field Training:** Specialized training in field survival, radiocommunication, and advanced cryptography.

Additional Information

- **International Network:** Close professional ties to experts in maritime logistics (Capitaine Haddock) and advanced physics (Professeur Tournesol).
- **Field Asset:** Accompanied by my loyal companion, Milou (Snowy), who provides uindværlig support during complex investigations.
